SCORPIO FULL MOON

OVERVIEW OF SCORPIO FULL MOON

The full moon in Scorpio arrives Friday, May 5th, at 10:33AM PST. This is a Penumbral Lunar Eclipse - where the Full Moon enters the penumbra of Earth, slightly dimming its luminosity. It emphasizes the balance between establishing roots and growing steadily (Taurus) and union and merging of resources (Scorpio). The eclipse may bring up themes surrounding money, security, and value systems.

Cafe Astrology says of this alignment: *The Taurus-Scorpio polarity deals with the balance between all that is mine (Taurus) and all that is yours (Scorpio). It also emphasizes the concept of form (Taurus) versus transformation (Scorpio).*

While Taurus deals with matter, personal values, material goods, possessions, and security, Scorpio rules the destruction of form, shared possessions, change, and transformation. The Sun in Taurus encourages happiness with the simple, tangible things in life, while the Scorpio Moon draws our attention to complexities, intangibles, and mysteries.

There are a number of aspects at play during this eclipse. Mars will be in harmony with the sun, Uranus, and Mercury retrograde in Taurus. Uranus can add to surprises and shake ups to the mix, but with these aspects in security-seeking Taurus it seems the Universe wants us to show up exactly as we are, and own our truth in the process. Especially around the themes that Taurus shines a light on - money, security, value systems.

Vanessa Corazon's advice for this full moon...
This Lunar Eclipse is all about birthing your best creative ideas into the world with an eye on what is tangible and possible given your finances. The grand balance is being struck between having lofty artistic goals and whether you have an intelligent plan and container to hold that successful work.

While there may be a heaviness around this Eclipse, the Universe is also reminding us to surrender, find our freedom, and activate a sense of curiosity and hope about what is ahead. As always trust your Heartmind and whatever is released from your life under this Eclipse. Use it to fuel a greater sense of freedom and to shift your life to a new chapter that is more aligned.

INNER EXPLORATION

Invitation to explore.. Under the Eclipse energies, see if you can find the freedom to trust, have hope, and surrender to the timing of your life.

Areas of focus for this full moon:

- **REVIEW** - What wins have you achieved this cycle so far? What is and isn't working and what might be ready to be released?
- **RESET** - Your intentions for the rest of the cycle and what you desire to complete that will add to the *stability AND pleasure* of your business
- **RELEASE -** with an eclipse a release may occur without any of your own intention. The addage "Allow whatever comes to come, and allow whatever goes to go" definitely applies here. But explore if there is something that you feel "in your bones" that is ready to be released - it could be practical and tangible, or it could be a mindset or a belief.

As always you can personalize this by looking to see what house this moon falls in your own personal transit chart.

Work with this **FULL MOON GUIDED MEDITATION** and journal prompts to assist this exploration.

JOURNAL PROMPTS:

How can I use the energy of this Scorpio full moon to invite the most supportive stories, beliefs, and desires around being resourced, abundant, and prosperous into my life and business?

Can I release control, and unlock my imagination to view any endings or "shadows", or deeper emotions that arise with a playful and curious approach?

What resources do I have already that I can leverage to step more into the fullness of who I am and all the possibilities available to me?

With all of this in mind ***what is the one thing that will move the meter in your business that feels DOable and PLEASUREable to complete this cycle?***
